Dean's Scholarship Nomination Flow Chart

Frequently Asked Questions:

Can units with a one-year Master's program nominate a student for this scholarship?

Unfortunately, no. One of the requirements of this scholarship is that the unit will provide a second year of Master's funding to the recipient, which means the recipient must be registered in a multiple-year Master's program.

For what reason can a Dean's scholarship be deferred and what is the procedure?

International students who are unable to receive their study permit in time to attend the regular January/May/September 2016 term can request that the scholarship be deferred. The request must be made by the student's supervisor, who must also confirm that the unit will approve deferring the student's admission. Deferrals will be considered by Heather Lukey (heather.lukey@usask.ca) on a case-by-case basis and cannot extend beyond 12 months when the student would have originally started.

What is the scoring process? What is the maximum score a nominee can receive?

Nominees are awarded points based on the program they are entering

- PhD – 2 points; Master's – 1 point
- GPA – maximum 5 points
- Publications – maximum 6 points
- Presentations – maximum 3 points

A PhD nominee with a GPA of 100%, 10 publications and 10 presentations can receive a maximum score of **16**.
