Re: Proposed Changes to Admission Requirements for Graduate Certificates: 1) Quality Teaching in Health Professions Education and 2) Improving Teaching and Learning in Health Professions Education

The College of Graduate and Postdoctoral Studies is recommending a change to the required grade point average (GPA) for admission to the above-noted certificates from 70% to 65%. The minimum GPA for admission to any programming within CGPS is 65% on most postgraduate diploma programs. As certificates are lower level credentials than diplomas, it would be reasonable to allow the same standards for admission to these certificate programs.

These certificate programs can be completed independently, or they can be completed as components of the Master of Education in Health Professions Education. The programming is a partnership with many stakeholders in education and health science disciplines. Partners in the College of Medicine would like to offer admission to applicants not quite satisfying the current 70% admission requirement for the certificates. It was suggested that for graduates from the Colleges of Medicine and Dentistry, a 70% would be considered quite high. Those two colleges have professionals interested in obtaining graduate-level training. It was clarified that the 65% admission average would be applicable to all applicants, and not just those with a health sciences background. It was noted that a marketing team promoted the programming, and they had held program information webinars with attendees from a variety of backgrounds.

The admission requirements for the two certificate programs with the proposed change marked up is provided here:

- A cumulative weighted average of at least a 70% 65% (U of S grade system equivalent) in the last two years of study (i.e. 60 credit units)
- A four-year degree, or equivalent, from a recognized college or university
- Language Proficiency Requirements: Proof of English proficiency may be required for international applicants and for applicants whose first language is not English.
- Teaching responsibilities and/or the ability to demonstrate teaching experience

The proposal was supported by the Graduate Programs Committee of CGPS on June 8, 2020, and the Executive Committee of CGPS on September 9, 2020. Faculty in the Department of Educational Administration confirmed support for the change on October 1, 2020.

Attached please find the memos of support from the Graduate Programs Committee and Executive Committee, the proposal, and consultation with the registrar forms.

It was noted that the admission average was only one of the criteria for admission. There were requirements for an undergraduate degree, letter of intent, and references.

RE: Certificates in Quality Teaching and Improving Teaching and Learning in Health Professions Education programs modification

After consultation with the Associate Dean, CGPS, the College of Education is recommending changes to the admission requirements into the Certificate Programs of 1) Quality Teaching in Health Professions and 2) Improving Teaching & Learning in Health Professions Education. The proposed change includes decreasing the minimum admission average from 70% to 65%. Direct entry into the M.Ed. stream will still maintain a cumulative GPA of 70%, as per policy of CGPS.

Rationale for the Admission requirement Program change:

1. The Masters in Health Professions Education Program, approved by University Council and Senate, implements a “laddering” model, whereby potential students can choose to first complete the Certificate in Quality Teaching and, then, if so choose, move on to completing an additional four Masters-level courses to obtain a second Certificate (Learning in Health Professions Education). CGPS Policy indicates that a minimum GPA of 65% is adequate for admittance to this stream of completion. Those completing the eight courses (or awarded two Certificates) with a 70% or above on all courses, will be eligible to complete three additional research courses, thereby fulfilling the degree requirements for the M.Ed. designation.

2. A number of excellent candidates for this program will come from the Health Sciences (e.g., Medical Degree), where it is common for graduating students to have a GPA of less that the required 70% for direct entry into the Masters stream. However, holding advanced degrees, it is anticipated that most of these candidates would be successful in their course work (toward their Certificates), as well as their research and capstone courses.

Preferred Outcome:

With this moderate request for the admission requirement change, it will allow for consideration of potential students, who may have an advanced degree, but not a 70% GPA (required for direct admission to the Masters stream), but who will, with the 65% GPA minimum, be able to apply for consideration to be admitted directly into the Certificate stream and then be able to “ladder” these credentials/courses directly in an admission into the Masters in HPE.

Subject: Signed CWR - Admission Changes - Graduate Certificates in Health Professions Education

Good morning,

Please see the completed Consultation with the Registrar Forms that propose a change to the required admission averages for the following existing Graduate-Level Certificates:

- Quality Teaching in Health Professions Education
- Improving Teaching and Learning in Health Professions Education

The only change being proposed to APC, Council and Senate is the reduction of the required admission average from 70% to 65%. As such, we decided a formal meeting was unnecessary, but please let me know if you would rather proceed with a meeting. Pending approvals, this will be implemented in May, 2021.

Russ and Martha, please “reply-all” with your confirmation that the details of the form are correct. Your confirmation email will replace a signature of approval in the midst of the coronavirus pandemic (COVID-19) disruptions.

Thank you,
